Who We Are

- AquaNew is a Florida-based company that discovered a patent-pending new science for making Polarized Water.
- Its first product, premium bottled Watt-Ahh[®] (an AquaNew[®] Water), launched in November of 2007.
- Watt-Ahh[®] was nationally introduced by *New York Magazine* and *InterBev* in the categories of *New Water* and *Best Health Initiative*.

The theme for the labels on AquaNew's Watt-Ahh[®] is a refreshing thunderstorm on Siesta Key Beach, Florida, which was voted *2011 Best Beach* and *2016 Second Best Beach* by *Dr. Beach*.

What is Watt-Ahh®?

- AquaNew's Watt-Ahh® is 100% pure water.
- No sugar, no caffeine, no additives – only highly purified water
- It begins as municipal water and undergoes at least five stages of treatment.
- The final treatment stage is our patent-pending, electromagnetic Polarized Water Process (TDS <1 ppm; extra electrons associated with hydrogen).
- Benefits for athletes and others:
 - Superior hydration
 - Peak stamina and clarity
 - Fast recovery

By drinking AquaNew® Water, athletes recover faster from Marathons.

Iron Man Sponsor*

What is Watt-Ahh®?

- AquaNew's Watt-Ahh® unique stable molecular structure will not "revert back" to regular water.
- Watt-Ahh® supports cellular mitochondria functions for our body's own innate energy and immunity, critical in achieving optimum health.
- No stimulant additives to artificially trick the mind into feeling less fatigue.
- No comparison in either the beverage or nutraceutical product markets.

Crisp, Refreshing...Healthy

Watt-Ahh® is Gold Standard for Highly Purified Water

- Total Dissolved Solids is <1 ppm
- Tested by nationally-recognized labs and universities in Texas and Florida using the EPA protocols as follows:
 - Metals
 - Pesticides and PCB's in water
 - Chlorinated acid in water
 - Total phenols
 - Toxicity
- Routine water quality testing at water plant
- Parameters easily meet the FDA Standards for Drinking Water

Did you know the pH of our blood is 7.2 which is similar to that of ultra-pure water?

Watt-Ahh® is Gold Standard for Highly Purified Water

Multiple Treatment Stages:

- Filtration of quality water
- Double-pass Reverse Osmosis
- Double-bed De-ionization or Vapor Distillation
- Patent-pending Polarized Water Process
- Approx. two hours for the last treatment stage to produce 6,000 gallons of Watt-Ahh®
- Final filtration prior to bottling
- No nitrogen gas or ozone added

Laboratory tests show AquaNew's Watt-Ahh® meets standards established by ISO, ASTM, NCCLS and Pharmacopoeia for highly purified water.

Watt-Ahh® is the Stable Form of the New Type of Structured Water

- In the Summer of 2012, Dr. Zachary Bush, MD and other water experts used the GVD photonic camera and obtained for the first time, physical evidence on the significant differential of Watt-Ahh® when compared to that of other structured waters tested.
- The crystalline-type structure of Watt-Ahh® defends and stabilizes the Water when exposed to other forms of energy (e.g., an office with operating computers).
- Watt-Ahh® supports the healing redox molecules at the cellular level. True energy is produced by the mitochondria, powerhouses within the cells.

*Dr. Zachary Bush, MD
Revolution Health Center*

As the keynote speaker, Dr. Bush, MD presented a compelling case on the use of nature-centric innovations for healing.

“This is our

Pilot Studies on AquaNew's Watt-Ahh®

- **Vitamin Absorption**-Dr. James F. Collins, PhD., Dept. of Food Science & Human Nutrition, University of Florida, Gainesville, FL. using human intestinal epithelial (Caco-2) cells*
- **Neurological Health**-Dr. Leonard Smith, M.D. prescribed OAT (Organic Acid Testing); performed by Great Plains Laboratory for a group of children on the Autistic Spectrum and their parents
- **Results of these pilot studies and other test results are available upon request as well as an opportunity to interview health practitioners who use the Water.**

Leonard Smith, M.D.

“Hydration with pure water is highly recommended for proper bodily functions and good health. OAT testing was done before and after drinking treated ultra-pure water for one month in this small study, and it appeared to decrease some bacterial and fungal growth and benefit mitochondrial function.”

* **Watt-Ahh® used in the UF vitamin absorption study was more than 8 months old, showing its stable nature.**

Reported Benefits of AquaNew's Watt-Ahh®

- University pilot study results show Watt-Ahh® transports a greater amount of **Vitamin C** and **Iron** through cells when compared to that of tap water.
- Superior hydration
- Increased metabolism
- Detoxification
- Stamina and energy
- Clarity
- More efficient vitamin and nutrient absorption
- Fast recovery after exercising

“My patients seem to respond to the homeopathy treatments quicker when we use Watt-Ahh® in our custom-made homotox preparations.”
