What is Watt-Ahh™?

Watt-Ahh™ is new water based on a new patent pending process that reforms and polarizes it the way nature intended. All other water, tap water, well water, filtered water, distilled water, and R.O. water is used recycled water. Watt-Ahh™ is polarized water designed to stimulate the metabolism by dissolving metabolites in your blood to keep you healthy, energized, and to minimize the aging process. Clean-Refreshing-Restorative!

What can Watt-Ahh™ do for me?

At AquaNew, we did not set out to create the best tasting water on the planet, we intended to create a solution that would promote the general health of all people and allow the body to heal diseases without the side effects of modern medicine.

Modern medicines bring about needed reactions, but the byproducts of these reactions create unintended side effects.

Our intent was to utilize modern science to restructure the water molecule to neutralize free radicals, penetrate cellular walls washing away toxic byproducts, and allow the body to heal itself the way nature intended.

As stated earlier, we didn't set out to make the best tasting water on the planet, it just turned out that way.
