

FOR IMMEDIATE RELEASE

June 21, 2012

The New *Watt-Ahh*[®] Race Boat Makes its Debut at the *Sarasota Grand Prix Offshore Racing Festival* (the “Daytona” of Professional Boat Racing).

Sarasota, FL – Last year’s racing season ended with a local boat – known as the *National Guard/Watt-Ahh*[®] – being sold by owner, **Eddie Tamberino**. After many hours of searching the web, the world champion team finally found their next ride, going up three class levels to the highest Production P-1 Class. The boat itself, a 36’ Spectre cat with twin 900 hp motors and #6 mercury drives, also has a great past racing record.

“Driver, **Nate Hunt**, and I ran test trails and kicked up rooster tails offshore from Venice Beach last weekend. She is one sweet machine and we are ready for the stiff competition”, said Throttle, Eddie Tamberino, of **REDS Offshore Racing**.

During race week, the boat will be on display at **Morton’s Market** (1924 South Osprey Ave., Sarasota) on Wednesday, June 27, 2012 from 10 a.m. to 2 p.m. and at **Fleming’s Steakhouse** (1001 Siesta Dr., Sarasota) from 5-8 p.m. It will also be at the **10th Street Boat Pits** on Friday, June 29 and Saturday, June 30, 2012 between 10 a.m. and 9 p.m. The **Main Street Parade** starts at 7 p.m. on Friday, June 29. The **Watt-Ahh**[®] Boat will be competing in the second heat on Sunday, July 1, 2012 off Lido Beach.

“It is confusing for some new race fans on what boat actually has the lead in its class during the hotly contested races”, says REDS Marine Engineer **Rob Gourley**. “To promote a better understanding about the races, we offer the following chart that can be completed once all of the boats are registered during race week.”

Please contact **Super Boat International Productions** for the names of the registered boats by class and defer to the official rules found in the SBIP National Technical Rules at SuperBoat.com

“We appreciate all of the sponsors for the Sarasota festival that have supported the **Suncoast Charities for Children** for more than 27 years. This year, our Watt-Ahh® boat also supports **Childhelp®** to end child abuse and neglect,” said Gourley.

Class Name	Team Names	Boat Length	Engine Type	No. of Engines	Boat Type	Maximum Speed
